

CSU Simulation Exchange Conference

August 4-5, 2011

Thursday, August 4, 2011

*7-8am	Exhibit Set-Up	
8-8:45am	Welcome Introductions Opening Remarks-Setting the Stage	Dr. Dean Hendrickson Colorado State University
8:45-9:30am	Hi-Fidelity Canine Emergency Simulator	Dr. Dan Fletcher, Cornell Dr. Ben Kitchen, Alternavita
9:30am-10:15am	Improving Efficacy and Efficiency of Clinical Skills Training	Dr. Sarah Baillie Royal Veterinary College
10:15am-10:45am	Break/Gallery Walk	
10:45am-11:30am	Use of Human Simulation for Leadership Development Application	Kristen Truman (PhD candidate) Cheyenne Regional Med Center
11:30am-12:15pm	Building Surgical Skills using an Abdominal Wall Model	Dr. Dean Hendrickson Dr. Fausto Belezio Colorado State University
12:15pm-1:30pm	Lunch/Gallery Walk	
1:30pm-2:15pm	Lo-Fidelity Simulation Models	Dr. Rikke Langeback University of Copenhagen
2:15pm-3pm	Use of Simulation: Technical and Faculty Perspective	Dr. Don Stredney Dr. Mary McLoughlin Ohio State University
3pm-3:30pm	Break/Gallery Walk	
3:30-4:15pm	Improved Learning and Retention of Health Science Concepts through the Use of Screen-Based Computer Simulations	Dr. Rob Keegan Washington State University
4:15-5pm	Review of Bovine Dystocia Simulator and Equine Colic/Rectal Palpation Simulator	Dr. Gord Krebs Dr. Emma Reed University of Calgary
5pm-6pm	Free Time	
6pm-7:30pm	Cookout Dinner (Ram's Horn)	

CSU Simulation Exchange Conference

August 4-5, 2011

Friday, August 5, 2011

8:00am	Setting the Stage-Day 2	Dr. Dean Hendrickson
--------	-------------------------	----------------------

8:15am-9:00am	Utilizing Models and Computer Simulation To Teach and Assess Clinical Skills	Dr. Robin Fio Rito Ross University
---------------	---	---------------------------------------

9:00-9:30am	Open Discussion and Review of Work in Progress
-------------	--

9:30-10:15am	Facilitated Discussion-“Crafting the Vision”
--------------	--

10:15-10:30am	Break/Gallery Walk
----------------------	---------------------------

10:30-11:45	Facilitated Discussion-“Open Café”
-------------	------------------------------------

Café Questions:

1. Because simulation technology is so self-evident, what would it take to adopt and integrate more fully?
2. How will we know when we are successful with simulation in veterinary medicine education?
3. What opportunities do we have to collaborate and partner to achieve our collective vision?

11:30-12:45	Lunch
--------------------	--------------

12:30-1:45	Facilitated Discussion-“Next Steps”
------------	-------------------------------------

1:45-2:00	Closing Remarks
-----------	-----------------
